GREEN COUNTY FAIR DRAWS BIG CROWDS

The Races Are a Feature—D. W. Watt Gives Satisfaction as a Starter—Results Yesterday.

Mozroe, Sept. 7.—[Special]—The Green county fair is a pronounced success. The attendance is double over that of former years. About 2,000 were present the first day and a big crowd is expected tomorrow. The exhibit of cattle and animals is excellent and they had to build extra stables. The grounds are not excelled in the state.

The main feature, of course, is the races which are first class and closely contested. D. W. Watt, the starter, has given good work in starting. The weather is perfect and the vaudeville specialties are good. Mr. and Mrs. Watt are guests of John Chadwick to whom largely the fair's success can be attributed. Mrs. A. P. Burnham has been visiting with the Treats.

The races yesterday resulted as follows:

BATTLE WILL BE IN THREE STATES

Hot Fight Promised in Ohio, Illinois and Indiana.

Henry C. Payne Looks for a Decisive McKinley Victory—He Thinks Bryan Will Lose Twenty-Two Electoral Votes That He Won in the Last Struggle.

Chicago, Sept. 7.—"Indiana, Ohio, and Illinois constitute the great battle ground of this campaign," said Henry C. Payne, vice chairman of the republican national committee, yesterday. "There will be hard fighting elsewhere, but the heaviest work will undoubtedly be done by both parties in the three states I have named."

"We have a far better chance than the democrats have," continued Mr. Payne in making a comprehensive review of the situation in the territory tributary to Chicago headquarters, "to carry four of the states which went for Mr. Bryan in 1896, Kansas, Wyoming, South Dakota and Washington. Nothing short of a political revolution would carry the other mountain states for us, Colorado, Utah, Montana, Idaho and Nevada, but we'll keep the democrats busy there and will probably get back a majority of the silver republicans."

Hope for Nebraska.

"Nebraska is good fighting ground. Of Kentucky I cannot speak clearly. The local issue has most weight there and at this distance I cannot judge of conditions."

"Trouble in Indiana? Certainly That is always a doubtful state in presidential years. But Indiana is the only central state north of the Ohio river which I consider doubtful."

"Illinois, Wisconsin, Michigan, Minnesota and Ohio are not doubtful in my judgment, although Illinois and Ohio with Indiana, will be the great battleground. Minnesota, Wisconsin and Michigan are as safe for us as is Vermont."

"West Virginia, Maryland, Delaware? I do not undertake to speak of any states east of the Alleghenies, as they are under the jurisdiction of the New York headquarters, but I'll go broke that New York state will be for McKinley."

"To sum up: The only chance Bryan has is to hold all he had in 1896, and, in addition, to carry Indiana, Kentucky, West Virginia, Maryland and Delaware and either Illinois or Ohio."

Will Lose Many Votes.

"But he cannot do that. He will lose twenty-two electoral votes which he had in 1896—one in California and twenty-one in Kansas, Wyoming, Washington and South Dakota. Losing those, he might carry either Illinois or Ohio, with Indiana, Kentucky, West Virginia, Maryland and Delaware and still lose. "There is no reason in counting Illinois and Ohio, with the big republican majorities they gave in 1896, as doubtful states. So, with New York and the east solid as a rock and with the central states, except Indiana, practically in the same condition, there is no chance for Bryan any way you figure it."

FOUR PEOPLE ARE BURNED TO DEATH

Father and Three Daughters Perish Frightfully in a Fire in a London Suburb.

London, Sept. 7.—[Special Cablegram]—In a fire in the Tonbridge suburb this morning, a father and three daughters were burned to death. The town had just purchased American fire ladders but the fire men were skeptical as to their value, locked them up and lost the key.

DRUGGISTS FINISH WORK AT WAUPACA

J. H. Kamps of Appleton, Is Elected President.

Annual Convention of the Wisconsin Pharmaceutical Association Will Be Held in La Crosse Next Year—Amusement Part of the Program at Waupaca Was Fine.

Waupaca, Wis., Sept. 7.—Yesterday's session closed the business part of the meeting of the Wisconsin Pharmaceutical association. All sports and games were declared off until all business had been completed in order to give all an opportunity to give themselves up completely to the amusement part of the program.

No opposition developed and La Crosse was selected as the place for the annual meeting next year. The following officers were elected:

J. H. Kamps, president, Appleton. T. H. Spence, first vice president, La Crosse. W. H. Barr, second vice president, Milwaukee. W. P. Clarke, treasurer, Milton. Henry Rollman, secretary, Chilton. R. W. Bell, local secretary, La Crosse.

It is the unanimous verdict that it has been one of the most profitable, from an educational standpoint, meetings in the history of the association. While business has received its share the amusement part of the program has by no means been neglected.

Prizes aggregating over \$1,500 have been contributed to be distributed to the various victors, the ladies coming in for a goodly share. The prizes range from \$25 to a box of gum and are for druggists, traveling men and ladies with a varied assortment of contests, from detecting drugs by their odor, an old-fashioned spelling match, cake walk, prize waltz, wearing the largest hat, catching the most fish, being overly lean or fat, or being the most popular with the ladies.

The ladies will have a large number of individual contests the most animated being between the four who endeavor to out talk the others, the contest being declared a draw before the evening was over. The ladies vie with each other in running, rowing, dancing, throwing rocks, golf and all other novel ideas that can be devised.

The entertainment last evening included a literary entertainment and a hop. Miss Washburn of Oshkosh being engaged to recite several selections and music was given by the Wisconsin Veterans' Home band.

MINERS MAY ORDER A STRIKE TODAY

Decision on the Proposed Walkout in the Anthracite Region Must Be Announced by Monday.

Indianapolis, Ind., Sept. 7.—The Executive board of the United Mine Workers' union will decide probably today whether a strike is to be ordered in the anthracite coal region. If the strike is ordered it is expected that at least 100,000 men will be thrown out of employment.

Under the rules of the union the board must pass upon the proposed strike by Monday. The organization's constitution requires the governing body to take final action upon all petitions within ten days of date of presentation. The anthracite miners filed their proposition on eight days ago, and it is said on authority that a decision will be rendered today.

WAS SOCIAL EVENT OF THE SEASON

Brilliant Wedding of Miss Ethel Julia Grant and Joseph Quarles, Jr. at Kenosha.

Kenosha, Wis., Sept. 7.—The marriage of Miss Ethel Julia Grant, youngest daughter of Mr. and Mrs. Emory Levi Grant, to Mr. Joseph Very Quarles Jr. of Milwaukee, a son of Senator and Mrs. Joseph V. Quarles, was celebrated at the home of the bride's parents on Prairie avenue, in this city yesterday afternoon. The wedding was the social event of the season in southern Wisconsin, and society people from Milwaukee and Kenosha were in attendance.

The west parlor, in which the ceremony took place, was done in green ferns, palms and smilax. The other rooms of the house were in green, with white bride's roses interwoven in the ferns and smilax.

The bride entered the parlor on the arm of her father, who gave her away. She was attired in white chiffon, with ornaments of lace, orange blossoms, and diamonds.

The wedding ceremony was performed by Dr. J. L. Hewitt of the Congregational church, the full Episcopal ritual being used. After the wedding Mr. and Mrs. Quarles entertained informally at a reception, at which several hundred guests from Milwaukee, Chicago and Kenosha were present. Mr. and Mrs. Quarles will live in Milwaukee.

PHILIPPINE SOLDIERS ARE IN FAVOR OF MCKINLEY

Corporal Mabie, Co. C 30th Inf., Advises His Father in a Letter from Manila, to Vote Against Bryan for President.

HE GIVES GOOD REASONS FOR EXPANSION

Filipinos Must Have the Protection of U. S. to Civilize Them—Mass of Them Eager for Annexation—Natives Anxious for Schools.

Corporal Fremont H. Mabie of Co. C Thirtieth Infantry, now in the service of the United States in the Philippines, evidently represents the soldier element in those islands by being opposed to the election of Bryan for president. He writes to his father A. O. Mabie of this city, from Manila under date of July 15 as follows:

My Dear Father: Well I am informed that your party has nominated your favorite candidate, Bryan, for the presidency. Well, all I can say is that I am exceedingly sorry for both you and Billy, for I fear that when November comes you and Bryan will be all there will be left of the democratic party.

We don't know, as yet, what the platform of either party is, but we are led to believe that they are the same as in 1896. I suppose that the main plank of the democratic platform is anti-expansion. I certainly am an expansionist. I could not be otherwise. I think that if some of those anti expansionists could or would come here and see things as they really exist, instead of studying them from afar, they would change their minds (if they have any.)

Great Commercial Opportunity. There are great commercial opportunities for these islands if they can be developed. Native capital will never do it. The natives will be better cared for under American rule than they will be under a government of their own. The leading natives admit that the form of government proposed by the Philippine commission is more liberal than that of the so-called Philippine Republic. They also admit that their government could not exist on account of the hatred each tribe here has for the other. There are something like eighty different tribes in these islands. The Tagalos are the strongest tribe and are hated by the other tribes. Under a native government there would be internal troubles most of the time.

Filipinos Can Be Subdued. I understand some claim that the Filipinos can never be subdued. I am sure they can. The only trouble here now is with the Ladrones, or bands of robbers, who rob friend and foe alike.

Under the old Spanish regime some parts of the islands were entirely given up to those murderous bands, and no attempt was ever made to subdue them. A band of them would sweep down on a town and carry off whatever they wanted, sometimes murdering the defenseless inhabitants. It is true that they have been recruited from the insurgent ranks. Stern measures will bring them to time. The peaceful natives are well pleased with American treatment.

I see, too, that the "antis" are loud in their protestations against governing without the consent of the governed. It doesn't appear to me that the consent of 30,000 or more French and Spaniards was asked when Louisiana was purchased in 1803 or that the consent of Florida was asked in 1819, when that state was ceded to the United States, or the natives of Alaska in 1867.

Who can say that these people have

perance union met yesterday at their headquarters at Rest cottage, Evanston. Among other matters discussed was the prayer chain inaugurated by some of the members of the Indiana W. C. T. U. for the defeat of President McKinley at the coming election. The officers were unanimous in regretting this action, and will not co-operate with the originators of any of them. Mrs. Stevens, the president, and Miss Gordon, the vice president leave early next week for the East.

## TOBACCO GROWERS HAVE A BUSY WEEK

LARGE PORTION OF ROCK CO.  
CROP IS SHEDDED.

District Convention of the Order of Eastern Star at Edgerton—Belgian Industry Has a Very Successful Promoter in C. O. Shannon at Edgerton.

Edgerton, Sept. 7.—This has in all probability been the busiest week among the tobacco harvesters and a large proportion of the crop has been shedded. The Tobacco Reporter of the 7th says: "The early harvested is curing satisfactorily under better weather conditions and some samples are being shown of entirely cured leaf. The work of sampling the '99 packing is becoming quite general and while some damage is encountered the percentage is not alarming nor greater than other years unless it be in a few exceptional cases. Henry Miller has picked up about 500 cases of the remnants of the '99 remaining in first hands at prices ranging from 8 1/2 to 9 1/2. The shipments out of storage reach a total of 11 car loads, 550 cases from this station to all points. Vernon county reports indicate that about 600 acres have been contracted for at prices averaging around 8 1/2c.

Miss Ruth Watson and Christia Bowen are in Rockford this week attending the fair.

Ray Hutson arrived home last evening from Rhode Island, being called here by the death of his sister Myrtle.

August Dorn who resides on the Jos. Pollard farm had a valuable horse shot and killed by hunters one day this week.

About two hundred delegates are in attendance at the district convention of the Order of the Eastern Star which is being held in this city today. They come from Ft. Atkinson, Milton Junction, Stoughton, Janesville, Clinton, Cambridge. The Worthy Grand Master of the state, Mrs. Budd, of Lancaster, and other grand officers are present. A sumptuous banquet was served in Royal hall at 8 o'clock and after that lodge work will be exemplified by the Stoughton chapter.

On Tuesday, Sept. 11th, Hon. J. M. Whitehead, of Janesville, will deliver a lecture in the Congregational church.

Miss Clara Hargraves has gone to Juneau to fill the position as assistant principal in the High school in that city. Juneau was formerly the home of the Hargraves family.

McIntosh Bros. are building a new storage warehouse. This is the fourth warehouse for Edgerton this season.

It is reported that C. T. Mabbett has contracted for 250 acres of the new Vernon county tobacco crop.

E. C. Hopkins is up in the Kickapoo country this week looking after his large ranch there.

Miss Eva Steele left for her home in Boston Tuesday. Miss Steele was formerly teacher in the public schools here and has been passing her vacation among friends in this city.

The Belgian hare industry has one promoter in Edgerton who is in a fair way to succeed. C. O. Shannon at his pleasant country home just north of the city is enjoying this business quite extensively and the profits from the sale of hares during the past few months have netted him a snug sum. The first stock was purchased last January from an importer and breeder of Mount Airy, Ind., and since that time he has bred and sold nearly a hundred hares. The Belgian hare is the most prolific animal that has thus far been domesticated, for it will produce its young every sixty days and on an average of from 8 to 12 at a time. The cost of keeping can hardly be counted, for all they demand is the trimming of garden vegetables and a little hay or grass. As a meat producer the Belgian hare excels all other animals that can be kept in equal space and at no greater expense. Besides the hares, Mr. Shannon has the Peruvian Abyssinian and English cavies in large numbers. He is a member of the American Belgian hare association of Chicago.

### BRYAN'S HOME CITY SMALLER

Loses 14,985 in Population in Ten Years—Padded in 1890.

Washington, D. C., Sept. 7.—Mr. Bryan's home city of Lincoln, Neb.,

makes a poorer showing in the census returns than any other city the population of which has been thus far announced. In 1890 Lincoln had a population of 55,154. The enumerators this year were able to find only 40,169. This shows a decrease in population during the ten years of 14,985, or 27.17 per cent. Omaha decreased 26.98 per cent. The falling off in population in the two leading cities of Nebraska makes it certain that under the new congressional apportionment to be made next winter that state will lose at least one member of the house of representatives.

## TALENTED JANESVILLE MAN MAKES BRILLIANT RECORD

Splendid Success of Edward M. Hyzer, the Recently  
Appointed General Solicitor for Wisconsin of the C. & N. W. R'y Co.

The announcement that Edward M. Hyzer had been appointed general Wisconsin solicitor for the Chicago & North western railway company was good news to Mr. Hyzer's many friends in Rock county. His advancement was well earned, and came in recognition of talent, industry and "a broad legal mind."

Mr. Hyzer has always ranked at the head, and has for many years been recognized as one of the leading lawyers of the state. His strength lies in his grasp of a legal proposition, and his resources were in meeting it. Janesville people can recall many cases in which Mr. Hyzer showed the trait that make a great lawyer.

In the Rock river building litigation, Shuman case, and in many other issues he developed new ideas and overcame obstacles that other able lawyers had declared to be unsurmountable. No case was ever too complicated for him to solve, and his success was phenomenal. It is not strange, therefore, that the Janesville man won quick recognition when he located in Milwaukee. Soon after he opened an office in the Cream City, he was retained by John T. Fish to aid in caring for the Chicago & North western railway business.

His success in this line of work was as marked as it had been in his private practice. It is a well known fact that a railroad corporation wins but very few personal injury cases, but Mr. Hyzer made a record that attracted attention.

Some months ago Mr. Fish was taken ill and Mr. Hyzer had to assume entire charge of the railway business. Upon Mr. Fish's death the company announced that Mr. Hyzer would be his successor, the appointment coming to him unasked.

While no authoritative announcement as to salary has been made, the Milwaukee Evening Wisconsin says that Mr. Hyzer will receive \$13,000 per year.

Edward M. Hyzer was born in Janesville on December 10, 1854, and is the son of Mr. and Mrs. Jacob B. Hyzer.

He was educated in the Janesville schools and also in Prof. Haire's classical academy. He studied law in the office of J. B. Cassaday, now chief justice of the Wisconsin supreme court, and was admitted to the bar in 1879. In 1885 he formed a partnership with Mr. John Winans. This partnership continued until Mr. Hyzer left the firm to take the management of the Janesville water company. Some time ago he decided to resume his profession, locating in Milwaukee and the story of his rapid advancement in that city is known to everyone.

His predecessors in the office were Judge Jenkins, now of the United States court; Senator William F. Vilas; General F. C. Winkler and John T. Fish.

Mr. Hyzer will not join a firm but will have an office of his own and devote his entire time to the railway company's work.

## ALASKA GLACIER KILLS 5 INDIANS

Centured Rivers of Ice, Shaken From  
Their Places By An Earthquake  
Do Great Damage.

Seattle, Wash., Sept. 17.—An earthquake at Lituya Bay, Alaska, according to information brought by the steamer Bertha, did a vast amount of damage. Five Indians are known to have been killed.

The news was brought from the bay to Yakutat by Indians in canoes. The disturbance occurred on Aug. 11. They apparently appeared in the district of Mount Elias and Mount Fairweather.

On Aug. 11 two heavy shocks were felt, according to the Indians. The second shock created great havoc, as well as destroying five lives. The Indian informants told persons at Yakutat that five of the immense glaciers which head into Lituya Bay were dislodged by the disturbance and were sent crashing into the bordering sea, filling it with mountainous ice.

The five Indians reported to have been killed were on a small island situated about a mile from the face of one of the glaciers. They were in a cave and were drowned by the great rush of water which swept over the island when the ice rivers crashed down into the bay. Chief George, one of the best known characters in the north, was one of the drowned Indians.

At the Michigan Central station a large crowd assembled to catch a glimpse of the vice presidential candidate as he was passing from the train to a carriage. Colonel Roosevelt was warmly welcomed along the drive to the Hotel Cadillac. A public reception was held in the hotel this afternoon. Colonel Roosevelt addressed a mass meeting tonight, and left at 10:30 for Saginaw, Grand Rapids, Kalamazoo and the west.

THE Y. M. C. A. band concert at Riverview Park last night was largely attended. The band rendered a number of selections in a pleasing manner.

**WONDERFUL CURE OF DIARRHOEA**

A Prominent Virginia Editor Had Almost Given Up, But Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy—Read His Editorial.

[From the Times, Billsville, Va.]

I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of this trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. R. Moore. Sold by Smith's Pharmacy, next to P. O., kodak agents.

Lincoln, Neb., Sept. 7.—During the production of the battle of Manila by a fireworks company in the baseball park, a section of the amphitheater, seventy-five feet in length, collapsed and injured a number of people, some seriously. It is considered a miracle that many were not killed outright. Two were injured seriously. They were: Clara Noble, Lincoln, spine injured; serious. Mrs. R. H. Wolcott, Lincoln, back badly hurt. Many others were slightly hurt, their injuries consisting of sprained and broken ankles and wrists, broken fingers, and bruised limbs.

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its roadbed for that reason is rock-ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

The great success of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the treatment of bowel complaints has made its standard over the greater part of the civilized world. For sale by Smith's Pharmacy next to post office, kodak agents.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and snuffs and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N.Y.

The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

## GLASSMEN IN LINE.

William Peck, of Baltimore, a prominent leader in the Glass Workers' Union, gives the reason why the thousands of glass workers in the United States intend to vote for McKinley. The question of party does not enter into it, said Mr. Peck. It is purely a matter of self-interest, and the democrats and republicans of our union are united on this matter.

"Why are we for McKinley? Because we are convinced that in this direction lies our bread and butter. The glass business is now in a most flourishing condition. I belong to the Glass Bottle Blowers' association, and our business is rushing. The demand from Cuba, Porto Rico, the Philippines and China has vastly stimulated the bottle trade.

"Our wages have been raised 15 per cent. in the past two years, 8 per cent. last year and 7 per cent. this year, just restoring the cut that was made under the democratic administration in 1893.

"There are not enough blowers to fill the places, and where formerly there was an apprentice to every fifteen men we now have one to every ten.

"To put the matter in a nutshell, under the democratic administration and the Wilson bill we were docked 15 per cent. in our wages, and had employment for only about three months in the year. Under McKinley's administration and the Dingley bill our wages have been raised 15 per cent. and we find employment ten months in the year. That is the reason why the glass men are going to vote for McKinley.

"This is the state of affairs in all branches of the glass trade all over the country. The president of our union, Dennis Hayes, was for Bryan last election, but he will vote for McKinley this year.

"There are 6,000 people connected with the glass business in Indiana alone, and their votes will make that state go for McKinley. We are only protecting our own interests."

Jefferson county used to be overwhelmingly democratic, but things have changed of late, and Chairman Kiepert, of the Republican county committee, says the republican county ticket stands an excellent chance at election this fall. Perhaps Mr. Bryan can explain this change of sentiment, and then again perhaps he cannot.

Ex-Governor W. D. Hoard, in his speech at the Milton Junction senatorial convention said that in Jefferson county alone five hundred German first voters of democratic tendencies, would vote for President McKinley. Jefferson county has a large percentage of German population, and the ex-governor knows what he is talking about.

McKinley and are not afraid that the republic will become an empire.

Too much importance has been attached to the democratic congressional deadlock in the Madison district. It really doesn't make any difference which one is nominated.

Mr. Schurz must naturally take great pride in supporting Bryan for president and at the same time admitting the necessity of "hanging him up so that he can do no harm."

The Whitewater Gazette, which has been independent in politics, has embraced the republican faith. The Gazette is a good local paper and will wield a large influence.

Several assembly and senatorial conventions have followed the lead of the Janesville assembly district convention by passing the same resolution that was adopted here.

The slot machine gang is as bold and defiant as it is lawless. The light will be turned on presently, however, and then there will be a new deal all the way, round.

The theatrical journals say that the rag time craze is dying out. It has been considerably frayed about the edge for some time past.

Mr. Bryan no longer fears "the money power." He has a long bank account himself these days, is quite a plutocrat, in fact.

"An ounce of prevention is worth a pound of cure." Janesville should "turn the rascals out."

Constant Reader—No. Mr. Carnegie was not the original "Man in the Iron Mask."

## FAIR OFFER.

We will answer one sealed question and give each caller's name in full, first, to convince those who call with the object of having a reading. Is this not honest? Could anything be fairer? Why do we make this offer?

BECAUSE believing as we do that public opinion is the Supreme Tribunal, the court of last resort before which all men must stand on final appeal. This Tribunal is vigilant, exacting, merciless, and to it we approach—not in the spirit of the braggart, but modestly, confident in the merit of our cause and the unimpeachable character of our witnesses. Candidly we admit that the nature of our proposition, on which we predict our right to equity, to a favorable verdict, is so extraordinary as to excite an incredulity that can only be removed by indisputable testimony and to invite criticism so exacting that to be turned to favorable account, leaves us no alternative but to rest our plea on the sure foundation of overwhelming evidence. The power or gift or whatever it might be termed that we possess, is to us as much beyond the province of clear explanation as it is mysterious and incomprehensible to our patrons. Whether it is Spiritual, Divinatory or Psychic we leave wholly to those who experience and witness its amazing manifestations.

We ask no questions (but answers sealed messages) and before you can utter a solitary word we tell your name in full.

## BUOB'S BREWERY SAFE IS ROBBED

The Smoothest Burglary  
Ever Carried Out in  
the Bower City.

## GOOD HAUL WAS MADE

The Thieves Got \$200 in Cash  
and \$175 in U. S. Revenue Stamps.

## OLD HANDS AT THE BUSINESS

One of the smoothest and most successful cases of safe robberies that has occurred in Janesville in a long time, took place at the South Side brewery last night. The robbers carried off one hundred and seventy dollars in internal revenue stamps and about two hundred dollars in cash.

Bored Holes in the Safe. The robbers gained access to the office by the way of the front door to the brewery. They first bored a number of holes through the panel to the door along side of the lock, and forced out a piece of the panel in the lower left hand corner of the upper-panel near the lock, about six inches square and reached in and opened the lock.

Inside the door in a small hallway about ten feet long and at the end of this hall is a door leading to the living rooms up stairs over the office. The first thing the robbers did was to lock this door from the outside, so as to prevent any one from coming in on them before they could get away in case they were discovered.

Took Great Precaution. They also went into the bar room and barricaded the door leading to the lower part of the brewery with beer kegs, so that no one could get into the room from that direction.

The office in which the safe stands, is a small room off from the bar room and the little hall which leads up stairs. It is on a level with Main street, and has two windows on the Main street side directly in front of the safe.

Once inside the office with everything fixed to prevent interference the robbers proceeded to open the safe. The handle, that works the bolts was in the way, so they first drilled a hole through the handle of the handle, making it an easy thing for them to twist it off. After getting rid of the arm of the handle they drilled a seven-sixteenths hole through the door, striking the bolt which connects the combination with the bolts that lock the door.

Safe an Easy Prey. They then cut a thread in the hole made by the drill which would fit the thread on a steel bolt they had. Then by screwing the bolt into the hole against the bar between the combination and bolts, broke the bar and left the safe in such shape that all they had to do was to turn the handle that throws the bolts and open the door.

The safe has no inside steel doors so that when once they had the outside door open the rest was easy. The keys to the inside drawers were in them so that all the robbers had to do was to open them and take out the contents consisting of money and stamps.

Old Hands at the Business. The men that did the work were old hands at the business and did not leave a thing behind them to show how the work was accomplished except an old chisel which was used to pry out the panel of the door and to pry open a window that they might get out easily if discovered.

Stewart Winters, an employee of the brewery, was sleeping directly over the office where the robbery took place and did not hear a sound. He closed up the office last night about 11 o'clock and went to bed. This morning when he came down stairs he found the door at the foot of the stairs locked and could not get out.

He had to call one of the men from across the street to come and unlock the door. He thought it very curious that the door should be locked as he left it open when he went up to bed. He and the man that opened the door then commenced to look around and found the doors barricaded and the safe in the office opened and robbed.

Not a Sound Was Heard. Mr. Boub has a large dog and he was sleeping up stairs in the room with Winters, directly over the office and did not make a sound during the night. The robbers knew their business and made no noise.

After going through the safe the robbers carried their plunder outside the building around the end of the ice house but a few feet distant and took all that was valuable and left the rest lying on the ground where it was discovered this morning.

They carried off several insurance policies which were of no value to them and a search of the surroundings was made this morning in hopes they had discovered what they were and had thrown them away but nothing was found.

Spotted the Brewery As Easy. The robbers had evidently spotted the brewery as an easy place to rob and were well posted as to the position of everything in the office. Mr. Buob bought two hundred dollars worth of revenue stamps yesterday and had used but twenty dollars worth. It being the first of the month he had been making his monthly collections and also had quite a sum of money handed in by one

of the men last evening which he placed in the safe.

One or two suspicious characters were seen around the brewery yesterday and two strangers were seen in the bar room late last evening. They were undoubtedly looking around to see if there was much money in sight.

The work from start to finish looks like men who are old hands at the business and that are willing to take big chances to make a good haul.

He was a man who was universally liked and had numerous friends among the children. He leaves surviving him three sisters, Mrs. Fannie George and Misses Elizabeth and Ann Harris.

DOCTORS VS. LAWYERS  
The "Rubber" in This Series Will Be  
Played at Athletic Park Tomorrow Afternoon.

The much talked of "rubber" in the series of ball games between the doctors and the lawyers of this city will be pulled at Athletic park tomorrow.

Each team has one game and tomorrow's contest will settle forever the question of the supremacy of the respective professions. Each team is confident of winning, as each think they have a pitcher with a few heretofore unheard of curves which they have kept in reserve especially for the occasion and which will put the other side to sleep in short order.

Both sides have been in constant practice and the game will be a good one. No petting or quackery will be allowed.

BIG CATHOLIC MEETING.  
Effort at Philadelphia to Federate All Societies.

Washington, Sept. 7.—Advices received here indicate that one of the most important meetings of Catholic priests and laymen ever held in this country will convene at Philadelphia, under Archbishop Ryan's auspices, on Sept. 17.

This meeting will be attended by delegates representing every section of the United States and from all the Catholic benevolent and fraternal societies under the guidance of episcopal authority, which, it is estimated, embrace a membership of fully 150,000 souls. The object in view is to form a federation of these associations, if possible, for the general good of them all. It is understood that the order known as the "Catholic Knights of America" has initiated the movement looking to the amalgamation, in this respect following the suggestions recently given by Bishop McPaul of Trenton, N. J.

Bar Women from Choires.  
The report is circulating that many Sacred Congregation of Rites directs the prohibition of women from participating in the music at divine service in Catholic churches throughout the world. It is to apply more particularly to solo work in choirs. Boy sopranos are to be substituted. The decree was caused, it is generally believed, by the violation of the sanctity of the service in France, where opera singers are in demand for choir work.

CAKES, chocolate cookies, fried cakes, pies, brown bread, cookies and rolls. King's Daughters, Baptist church. Sale at corner of Jackson and Milwaukee streets, Saturday p. m., 8 to 6.

## WITH A MANIAC IN MIDLAKE.

### Two Men Face Death in a Yachting Trip.

### KEPT MADMAN INTERESTED.

Robert Weiskettle Starts on a Trip with a Doctor Who Becomes Insane and Threatens to Kill His Friend and a Sailor in Charge of the Boat.

Mackinac Island, Mich., Sept. 7.—Robert Weiskettle of Cincinnati, a wealthy insurance man, for an hour this afternoon was out in midlake with a maniac who sought his life and the life of the one sailor aboard. By strategy Weiskettle directed the madman from his purpose until the intended victims managed to make their escape at no greater cost than the really severe shock to their nervous systems occasioned by facing what they thought was certain death.

Weiskettle, who is spending his vacation at the Cheneaux Islands, recently became acquainted with a physician from Flint, Mich., with whom he became quite friendly. To-day the doctor proposed a sail to the Cincinnati man, and they engaged a one-man yacht and started.

The boat got well out in the lake when suddenly the physician, who was unusually quiet, drew a brace of pistols, and, laughing with maniacal glee, announced his intention of killing his companions.

Weiskettle says that the physician, in whose eyes he detected the unmistakable glare of lunacy, had another brace of pistols lying beside him on the seat, and began to parley: "Don't you know you are with friends?" he said.

"I've got no friends. I'm going to kill all my enemies, and I'm going to start on you two," responded the demented man, waving his weapons threateningly.

"But, doctor, if you'll just let us have a revolver apiece we'll keep your enemies away, and they shan't get you," craftily spoke the frightened Weiskettle.

"No, you don't. I know you're after me with the rest," the doctor replied. Though the lunatic seemed intent on carrying out his project he talked to his captives, and in this way they engaged his attention on other things. Thus the sailor was enabled, unnoticed, to turn back to land, and presently the prow touched the beach while the physician was still flourishing his weapons.

While the boat was still on the sands Weiskettle and the sailor jumped out and ran for their lives. They secured help and captured the doctor before he did any harm. Investigation developed the fact that the maniac had been an inmate of the insane asylum at Flint, but discharged some months ago as cured. He was at the islands, convalescing, and was supposed to have been entirely restored to reason.

### Refuses to Flee from Jail.

Kirkwood, Mo., Sept. 7.—Moses Zambriz, colored, is a prisoner in the jail here. The city officials wish he would escape. They have given him several opportunities, but Zambriz refuses to flee. He was sent to jail for six months and ordered to pay a \$200 fine or work out the amount in jail for carrying a razor. The heavy sentence was intended to be a warning to other negroes. Now the officials have no work for the prisoner and they are tired of feeding him. Zambriz says: "I've gitten three square meals a day, an' dat's mo'n I use to git, an' I's gwine to stay hyah."

### Is Dragged to Death by a Cow.

Blue Island, Ill., Sept. 7.—Joseph Nagle, aged 12, was dragged to death by a cow on his father's farm near Blue Island. He had wound a rope around his waist, the other end of which was tied to the cow's horns, and when the animal began to run he was thrown down and terribly battered. When at last one of the farm hands stopped the cow only the lifeless form of the boy remained. Death came by strangulation.

## MOLDED LAMB.—

Wash and dry a rib or shoulder cut of lamb and place in a deep kettle of boiling water. Cook slowly until the meat drops from the bones, about two hours. Skin frequently. When done, there should be very little liquid left in the pot. Remove the meat from the bones, cut into small pieces and season with the liquid. Then place it in a china molding dish and cover with a plate. Place a weight on it and stand away in a cool place to harden. It should stand at least 24 hours before using.

## Rheumatism

Rheumatic pains are the cries of protest and distress from tortured muscles, aching joints and excited nerves. The blood has been poisoned by the accumulation of waste matter in the system, and can no longer supply the pure and health sustaining food they require. The whole system feels the effect of this acid poison; and not until the blood has been purified and brought back to a healthy condition will the aches and pains cease.

Mrs. James Kell, of 707 Ninth street, N. E., Washington, D. C., writes as follows: "A few months ago I had an attack of Sciatic Rheumatism in its worst form. The pain was so intense that I became completely prostrated. The attack was an unusually severe one, and my condition was regarded as being very dangerous. I was attended by one of the most able doctors in Washington, who was also a member of the faculty of a leading medical college here. He told me to continue his prescriptions and I would get well twelve times without receiving the slightest benefit. I declined to continue his treatment any longer. Having heard of S. S. S. (Swift's Specific) recommended for Rheumatism, I decided, almost in despair however, to give the medicine a trial, and after I had taken a few bottles I was able to hobble around on crutches, and very soon thereafter had no use for them at all. S. S. S. having cured me sound and well. All the distressing pains have left me, my appetite has returned, and I am happy to be again restored to perfect health."

the great vegetable purifier and tonic, is the ideal remedy in all rheumatic troubles. There are no opiates or minerals in it to disturb the digestion and lead to ruinous habits.

We have prepared a special book on Rheumatism which every sufferer from this painful disease should read. It is the most complete and interesting book of the kind in existence. It will be sent free to any one desiring it. Write our physicians fully and freely about your case. We make no charge for medical advice.

**THE WAR IN SOUTH AFRICA.**

The Boers Show Defiance at Roberts' Order.

New York, Sept. 7.—A dispatch to the Tribune from London says: "As if in defiance of the annexation proclamation, the Boer resistance is assuming fresh activity in various distinct quarters. Gen. Buller's column has been fighting continuously since Aug. 21, and now finds its progress blocked by Botha among the Lydenburg mountains in a position which is described as stronger than Vaal Krantz or Laing's Nek."

"The fighting of Sunday and Monday made no impression on Botha's force, which probably will be able to hold out by a frontal attack. But Lord Roberts hopes to turn them out by a flank movement, according to some newspaper correspondents."

"This will be the last stand of the Transvaal Boers, who will not retreat further northward, owing to the hostility of the natives."

"It is curious that Gen. Roberts' recent dispatches contain no reference to fighting in the Congo river colony, which has been serious. Ladybrand, with its garrison of 150 men, has been besieged by a strong force of Boers and had made a desperate resistance. According to a Reuters' telegram yesterday the siege has been raised by the Boers."

"A commando has also appeared at Thaba Nchu, near the Bloemfontein water works, the scene of one of the most successful exploits of the burghers in the spring. A British force under Bruce Hamilton hastily left Bloemfontein on Saturday, and there was an engagement near the water works on Sunday, in the Central Free State."
